

Single Mothers Portrait Event

The International Women's Day event of taking portraits for single mothers and their children was a great success. 43 single mothers were pampered with make-up and hairdo while the children had a great time in their kids corner playing different kinds of games, story-telling, colouring, drawing etc.

WCC, PPW in partnership with Help-Portrait Penang was able to bring smiles on the faces of those who participated. The event also created a venue for single mothers to get together and build their networking among each other. We thank all the volunteers who gave time to make this event possible.
